The Museum of the City of New York's highly sought out mansion-like landmark is an ideal space for film, location, movie, and still photography shoots. Located across from the Central Park Conservatory Garden on 5th avenue, the Museum boasts soaring galleries, its iconic Rotunda with a marble staircase, and beautiful outdoor terraces. To book your shoot, contact events@mcny.org.

Past film shoots have included critically acclaimed shows CW's *Gossip Girl*, NBC's *30 Rock*, CBS' *Madame Secretary*, CBS' *Instinct*, feature films and commercial shoots.

The Museum features multiple spaces for holding (actors + extras), wardrobe and makeup, load in/ out ramp, and a freight elevator that holds up to 3,000 lbs.
